Upper Division Biology (6) _____

BIOL minors may choose electives in the following categories: Physiology; Genetics; Cell/Molecular Biology; Organismal Biology; and Ecology, Evolution, & Behavior.

The BIOL minor requires six unique units that are not used to satisfy any other major or minor within the same degree.

Undergraduate Minor in Ecology & Evolutionary Biology

18 units are required for the minor. 9 of those 18 units must be upper division.

INTRODUCTORY BIOLOGY (*Complete all courses.*)

MCB 181R (3) ____ MCB 181L (1) ____ ECOL 182R (3) ____ ECOL 182L (1) ____

UPPER DIVISION REQUIREMENTS

ECOL 302 (4; Summer; Fall) ____ or ECOL 335 (4; Spring) ____

Upper Division Biology (6) _____

EEB minors may choose electives in the following categories: Organismal Biology; and Ecology, Evolution, & Behavior

The EEB minor requires six unique units that are not used to satisfy any other major or minor within the same degree.

Guidelines for Minor Electives

- Directed research, independent study, and internships may not be used to fulfill minor electives.
- Minor electives may not be double dipped toward any other majors or minors.
- PSIO 201 & 202 may not be used for the BIOL minor elective requirements.
- Minor electives should be primarily selected from EEB Departmental Elective lists:
<https://eeb.arizona.edu/undergraduate/majors-minors/core-elective-courses>
- Minor electives may also be selected from the following EEB courses as long as the course is not also counting toward the minor core: ECOL 302, ECOL 320, or ECOL 335
