

# SEPTEMBER 2024 SEMINARS

## ECOLOGY AND EVOLUTIONARY BIOLOGY

**MONDAYS AT 3:00-4:00 PM**

**Sept. 9**

### **Evolutionary ecology and ecological genomics of rapid evolution on human timescales**

**Katrina Dlugosch**, Associate Professor  
Ecology and Evolutionary Biology, University of Arizona

ENR2 Room S107 and on Zoom

**Sept. 16**

### **Ancient viral epidemics through the lens of adaptation in host genomes**

**David Enard**, Assistant Professor  
Ecology and Evolutionary Biology, University of Arizona

ENR2 Room S107 and on Zoom

**Sept. 23**

### **Polyploidy, Diploidization, and the Evolution of Plant Diversity**

**Michael S. Barker**, Associate Professor  
Ecology and Evolutionary Biology, University of Arizona

ENR2 Room S107 and on Zoom

**Sept. 30**

### **Exploring the costs of horizontal gene transfer**

**David A. Baltrus**, Associate Professor  
Plant Sciences, University of Arizona

ENR2 Room S107 and on Zoom
